HAD HIS EYE ON IT

John Bull's Scheme to Gobble Lower California.

The Plan Was to Drive Out All American Settlers,

Colonize the Peninsula With British Subjects and Then Establish a British Protectorate Over the Country—The Englishmen May Be Given the Razzle-Dazzle in Consequence.

NEW YORK, June 16.—A Herald special from Ensenada, Lower California, says the English corporation known as the Mexican Land and Colonization company has adopted and put in force a policy with the object of driving every American settler out of Lower California. The company's idea is to colonize the peninsula with Englishmen, and establish a British protectorate over the country.

On July 17, 1889, a decree was issued by the Mexican government containing a list of articles that should be admitted free of duty into Lower California, for the use of the colonists. To prove that one was a colonist, it is necessary to secure a certificate from the Mexican consul at San Diego. This certificate is forwarded to Ensenada, where the inspector of colonies keeps a register of "colonists." The policy of the English company has been to use its influence to keep the names of Americans from being included in this list.

Its efforts in this direction has been so successful that the Americans were forced to organize what is now known as the American Colonists' Protective association. This association is now in a healthy condition, and is engaged in circulating a memorial which is being liberally signed by residents, and which will be presented to President Diaz through Gen. Torres.

The general asks that President Diaz revoke the grant made to the English company on the ground, among other things, that it has failed to comply with its agreement made with the colonists; also that they are convinced that the English have well-matured plans to involve the American colonists in a filibustering scheme for the purpose of creating a strong prejudice against Americans on the part of the Mexican government and people, with a view of securing the full confidence of the Mexican government and finally controlling the peninsula, thereby gaining a strong strategic point on the Pacific coast for the British government.

ARMS FOR ENGLISHMEN

Smuggled In and Buried Within Two Miles of Ensenada.

A Herald special from San Diego, Cal., says:

Among the arrivals Friday on the steamer from Ensenada, Lower California, were General Manager Lear, of the Mexican Land and Colonization company; Father Ubach, a Spanish priest, and Senor Francisco Espinoza, district attorney for the Mexican government of the northern part of Lower California. Mr. Lear said he was en route to London. It is understood that he returns on orders derived from Sir Edward Jenkinson for the purpose of talking over the situation.

Father Ubach is a priest from Barcelona, and is the reputed agent of the church party. He states that the affidavit of the steward of the steamer Carlos Pacheco has been taken, going to prove that rifles were some time ago smuggled into Lower California by and with the consent of the English company; that guns are buried within two miles of Ensenada, and are there yet unless they have been removed by the company or its agents.

Senor Espinoza is en route to the City of Mexico, and carries with him a sealed message from Governor Torres to President Diaz.

NOT BELIEVED.

The Report of a Threatened Invasion Into Mexico from Texas.

CITY OF MEXICO, June 16.—Very little credence is given here to the numerous reports of threatened invasions into Mexican territory from Texas.

One of the names mentioned in connection with these invading schemes is that of Gen. Ruiz Sandoval, who is now at Laredo, and who was expelled from Mexico a few months ago on account of his revolutionary proclivities. President Barrios, of Guatemala, would be pleased to capture him as would also the Colombian government. His life has been one of constant intrigue, and if any revolutionary movement is contemplated, it is safe to say he has a hand in it.

"GOD HAVE MERCY."

The Last Words Spoken By a Canuck Wife Murderer on the Scaffold.

LONDON, Ont., June 16.—Henry Smith, who murdered his wife on Feb. 18 last, was hanged at 8:13 Friday morning.

Promptly at 8 o'clock Smith was conducted from his cell to the scaffold, supported by four sheriff's deputies. A short prayer was said by one of the attending ministers, during which the executioner adjusted the black cap, and at 8:13 the rope was cut and Smith launched into eternity. There were but twenty within the court yard.

On the way to the gallows the condemned man appeared weak and trembled, but his face wore a calm expression. As the hangman adjusted the noose before putting on the black cap, the poor fellow groaned and shook and had to be supported by the guards. "God have mercy," where his last words. The drop fell at 8:30, and it was eleven minutes before the jail surgeon announced that his heart had

ceased to beat. Death resulted from his neck being broken.

Smith murdered his wife in a drunken frenzy. The evidence on which he was condemned to death, however, was purely circumstantial. A confession made to his spiritual adviser by the prisoner was read, in which he acknowledged having killed his wife, and hoped his fate would be a warning to all who were addicted to drink.

CHARGED WITH TRAIN ROBBERY.

Three Men Arrested for the Recent Texas and Pacific Job.

TEXARKANA, Ark., June 16.—John Williams, Napoleon McDaniel and James Radcliffe have been arrested, charged with being the men who committed the recent train robbery near here. These arrests cause great excitement, as these men are well known and have hitherto born good reputations. Williams is a well known detective, and McDaniel an ex-policeman. A coat gave the clew which led to the arrest. Officer McGraw found a coat near the scene of the robbery, and while on his way to town with it, he met Detective Williams who took the coat and said it amounted to nothing as a clew.

This was told to the sheriff who immediately searched Williams' rooms and found a vest that matched the coat. Williams was then arrested. He owns a plantation in the country, and the morning after the robbery he called a doctor to visit a man at his plantation, who, he said, had shot himself by accident. This was Radcliffe, who is badly wounded and cannot recover. He is in jail. The evidence against the prisoners is regarded as overwhelming.

SULLIVAN TO PLAY LOVER.

The World's Champion Pugilist to Star on the Stage Next Season.

NEW YORK, June 16.—John L. Sullivan will next season become a real star in a drama which Duncan B. Harrison is writing for him. He will have a good many lines to speak, and among other things he will have to make love to a pretty girl. His drama will be replete with interesting situations, exciting climaxes and special features, among which will be the shoeing of a live horse before a real forge in full view of the audience.

John will assume the role of a blacksmith's helper, and Harrison will appear as the "smithy." Both of them fall in love with a sweet, pretty girl, and the blacksmith is driven almost to frenzy when he discovers that the girl's heart leans a trifle towards his handsome assistant. He then challenges the favored one to a fist encounter, and both agree that the victor shall marry the fair damsel who has caused all the trouble. Duncan B. Harrison is a pretty big man and can box a little, but of course he will make a poor showing with the big fellow.

NITRO-GLYCERINE LETS GO.

Works Near Findlay, O., Demolished. Shocks Felt Forty Miles.

TOLEDO, June 16.—A slight earthquake shock of about ten seconds duration was experienced here at 2:30 a. m. Saturday. Its course was apparently from north to south and it gave out a low rumbling sound. No injury was done, although windows rattled and buildings vibrated. The phenomena occurred at a time when the weather was hot, cloudy and oppressive.

LATER—It has developed that the supposed shock of earthquake was caused by the explosion of the nitro glycerine works of Costerline & Company, situated about four miles northeast of Findlay, about forty miles from Toledo. The works were totally demolished, but fortunately no lives were lost. The cause is a mystery. Loss about \$40,000.

FORNIST ORIGINAL PACKAGES.

An Agent at Fort Dodge, Iowa, Closes Up and Skips Out.

FORT DODGE, Iowa, June 16.—The citizens of Dayton, Iowa, have taken the suppression of the "original package" business into their hands. A couple of weeks ago a branch of this industry was established there. Although the town is strongly in favor of prohibition no effort was made to check the new legalized traffic until a 5-year-old boy was seen toddling around the street in a state of intoxication. Then the citizens arose in their might and told the original package man he must go. The agent thought it not wise to disobey the order, and has closed up his place of business and taken his departure.

HALE INDICTED.

He Will Have to Stand Trial for Shooting Eugene Cowles.

MONTREAL, June 16.—Judge Desmoyers committed Hale to the grand jury, now sitting. It was true, the judge said, that the accused might, owing to recent threats made by Cowles have considered his own and his sister's lives in danger, but in view of the fact, that the parties had no difficulty in the cab on their way from the hotel, and that the only recent provocation, if it might be called one, was that the cab did not stop in front of the convent, there was no justification for the shooting. The grand jury brought in a true bill against Hale.

Wants Big Money.

BOSTON, June 16.—The Herald has received a letter from Edward Hanlan dated Toronto, June 12, saying that the offer by Manager Thayer, of the Point of Pines, of a \$1,000 purse for a race between Hanlan, Gaudaur and Teemer is absurd. He will not row unless a \$5,000 purse is given. John Teemer telegraphs The Herald from McKeesport concerning Thayer's offer, that he will row for that money. An intimate friend of Gaudaur telegraphs from St. Louis that Gaudaur is on his way here, and will undoubtedly be willing to row for the amount offered. The offer holds good only in case all three men agree to row.

HUMILIATING.

Certain Facts Concerning Our Steamship Lines.

Comment by Our Brazilian Consul General.

Of 725 Steamers Entering the Port of Rio Janeiro During the Year Ending Dec. 1, 1889, but Fifteen Flew the Stars and Stripes—An Increased Foreign Trade Badly Needed—How to Get It.

WASHINGTON, June 16.—A statement has just been received as to the number of steamships that entered the port of Rio Janeiro during the year beginning Dec. 1, 1888, and ending Dec. 1, 1889. The total number was 725, of which fifteen flew the American flag.

Consul General Dockery.

Commenting on this, Consul General Dockery says:

"If the present American line were so subsidized that they could put on, say, four new and fast steamers and another line an equal number so as to secure weekly sailings. I believe in a few years our trade here would far exceed that of all Europe put together."

"I have examined this matter very closely, and in my views by no process outside of that can we hold permanently our commercial status, much less gain foothold in the sale and disposal of our accumulating and surplus products."

"In the connection let me further say that our lines should be extended at once to the Argentine republic, which, with its immense resources, is now commanding the attention of the European world. Not an American steamer enters the water of the Plata, where those of all other nations enter and depart."

The Brazilian government has been paying a subsidy to the American line, but it is not likely to do so much longer. The wage-workers of the country should interest themselves in this matter, for an increased foreign trade would mean the employment of more laborers.

THE Harrison County Democrats in mass convention Saturday endorsed Hon. W. J. Hendrick for Attorney General.

HON. JOHN P. LEEDOM says he is not a candidate for Congress in the district across the river. There are nine candidates in the five counties composing the district.

THE expenditures for pensions for the year ending the 30th of this month will be as now officially stated, \$109,357,534. Last year we paid \$87,624,779.11. The year before that we paid \$80,288,508.77. Next year it is estimated that the amount will reach \$150,000,000. What will it be a few years hence?

MR. WALKER, a Republican Congressman from Massachusetts, regards the Silver bill recently forced through the House by Speaker Read and his backers as a measure "dangerous to the public interests." Mr. Walker ought to know by this time that the crowd who are running the House now are running it in the interest of their party and not in the interest of the public.

THE county levy this year is 32½ cents on the \$100. Next year there will be no levy for the jail fund, and a reduction of 5 cents on the turnpike levy, so that the 15 cents to be voted on for school purposes will not increase the county levy beyond 32½ cents. This is taken from the statement of County Clerk Ball before the Court of Claims when the present levy was made.

AT the Congressional election in Louisville, 1886 the Courier-Journal charged that Burton Vance used his position as Supervisor of Elections to secure votes for A. E. Wilson, the Republican nominee. Vance sued the Courier-Journal for \$50,000 for libel, but the case was decided against him Saturday on the facts. It's a good idea to keep a close watch on these Republican Supervisors of Elections.

INFORMATION comes from Frankfort that Governor Buckner will advance money from his private fortune to meet all demands against the State until the depleted treasury is replenished by the payment of this year's taxes. There is already a deficit, which will reach \$50,000 by July 1, but the Governor comes to the rescue and will save the State's credit. He has already advanced \$10,000.

THE Stanford Interior Journal says: "An epidemic of murder seems to be sweeping the State. No less than a dozen men have met death by violence this week, and the bloody work continues. Human life is very cheap in Kentucky, and will be till more of the hemp crop is made into ropes to strangle the takers of it. Give us an epidemic of hangings for a while and the other epidemics will play out."

THE "raid on the treasury" is assuming alarming proportions. If you doubt it, look at this: In the course of some remarks on the conference report on the Urgent Deficiency Pension Appropriation bill, Representative Henderson, of Iowa, in the House Thursday, made the following statement of the appropriations made by the present House for the benefit of the soldiers: Regular pension bill, \$98,427,461; Urgent Deficiency, \$21,613,000; Soldiers' Home (deficiency), \$81,609; artificial limbs (deficiency), \$63,000; pay and bounty claims, \$1,123,629; Soldiers' Homes, \$2,601,765; aid for State Homes, \$400,000; artificial limbs, \$402,000; pay and bounty claims, \$680,000; expenses pension office, \$2,439,150, records and pension division War Department, \$837,270; act for total helplessness, \$45,000; general pension act \$35,000,000; Urgent Deficiency, \$3,708,833—Total, \$167,419,731.

FARM Mortgages in Kentucky. The census office has been endeavoring to effect that the census of 1890, Anderson, Davis and McGeehan, in the State of Kentucky, have been selected for the purpose of making a special investigation of real estate indebtedness in this Commonwealth.

WHY select these counties for the "special investigation"? Are they to be the criterion by which the State is to be judged on the subject of farm mortgages? If that's the object, such information will be of little value. The indebtedness of any county is no index to that of the State.

Notes About the Superior Court Convention.

The Mason County candidate had the lead from the start, and would have won had the convention held on until the race was completed. He is still in the fight and will be there at the finish.

Senator Poyntz made a good lieutenant for Robertson. His fellow townsman, ex-Senator Worthington, also did his duty nobly.—Lexington Transcript.

County Attorney John S. Smith, (the original John) of Paris, never fails to make himself known at a public gathering. When nominations were declared in order [the first call of the counties brought forth no response, through some misunderstanding. This was Smith's opportunity, and he seized it. No sooner had the secretary concluded his fruitless call of the counties than Smith bobbed up serenely from the first row of seats, and in a voice loud enough to be heard all over the hall, said: "If nobody else want's the nomination I'll take it. Of course everybody laughed at John's offer of martyrdom.—Leader.

Some of the Mason delegates say they made the Brent and Young men "take water." Perhaps, the result would have been different had they made the boys take something else.

Employees of Certain Chicago Horse Car Lines—Other Labor News.

CHICAGO, June 16.—The introduction of the cable system on the West Side bids fair to bring with it a general strike among the employees now operating the horse cars on the West Chicago street roads lines. It is said that many of the men thus employed are not qualified to do the service required on the grip cars and will probably be removed. The company asserts its determination to get the best men for grip service, and will put none to work who do not show particular intelligence in their duties. The employees are organizing and increasing the union in numbers, and it is thought that a strike is inevitable.

Union Lasters Out of Work.

MARBLEHEAD, Mass., June 16.—The lasters employed at Breed's shoe factory have been notified to finish up all the shoes they are working on at present and then quit the shop. Notice of a reduction of prices was given several days ago. The employees were willing to accept the price but the Lasters' union would not permit them. The shops will now be fitted out with lasting machines and non-union men.

Carbuncle Causes Death.

NEW YORK, June 16.—Lieut. Charles N. Clinch, Third United States cavalry, died on Thursday at Arverne, L. I., aged 31, of blood poisoning which followed a severe facial carbuncle. Lieut. Clinch was the son of Charles J. Clinch, who was for many years United States consul at Bordeaux, France, and who was one of the principal heirs of Mrs. A. T. Stewart. The young man was given his appointment in the army by President Arthur, who was a personal friend of the family.

Penny Dinners in Ireland.

The "penny dinners" established at Kingstown, Ireland, under the patronage of the Countess of Meath, Lady Powerscourt and other ladies of distinction, do a great deal of good. An important element in the working of its arrangements is the circumstance that dinners can be bought and carried home, no restriction being put upon the number purchased by each customer who is known to the management.—Philadelphia Ledger.

His Family.

George—Speaking of your wife, I have never seen her yet.

Jack—Is that so? You must come in with me. By the by, I have a new dog I want to show you, too; most wonderful fellow—a setter. Here's my house. We'll go in the back way—dog's in the yard.—New York Weekly.

A Supposed Shakespeare Table.

A very interesting piece of furniture has just been added to the museum at Shakespeare's birthplace—an old oaken table said to have belonged to Shakespeare's family and to have been in use in the poet's day. It was only discovered a few days ago, and one's examination of it on Saturday was practically the first inspection to which it has been submitted. It is a low round table, with raised edge, standing on a stout center leg with three toes. The top has evidently been beechwood for centuries. On the under surface of the table two letters (J. W.) appear.

The old Stratford families whose surnames begin with W are legion. Shakespeare had cousins named Webb, but the records do not allow any of them a Christian name ending I or J. The information on which the table was purchased is to be found in a statement made on oath before Mr. Lloyd Chadwick, Warwick. This gentleman, who is 80 years of age, states that when a boy he remembers the table being in the possession of his grandmother, and he often heard it spoken of by her and others. She bought it from a woman who purchased it at the sale of Shakespeare's house in Henley street, Stratford-on-Avon, and it was always known in the family as Shakespeare's table.—Birmingham Gazette.

To be in the procession, you must have a fan and sunshade to match every costume.

Ribbon bands are to be used to suspend the fan from the waist instead of chate-laine.

The time is at hand for substituting for the high standing collar one more comfortable.

Funny men remark that the net gowns, now so fashionable, are very catching.

Now is the time when silk gloves are far more comfortable than kid, a fact many women appreciate.

THE closing exercises of the colored school were held at the opera house Saturday night. This school is in charge of efficient and faithful teachers, and will compare favorably with any school of the kind in the State. The pupils made excellent progress in their studies the past session.

Quite a number of the patrons and friends of the Misses Young's school assembled at their residence Friday last to witness the closing exercises. After listening for two hours to essays, recitations, etc., the audience expressed themselves much pleased with the programme and the general progress of the pupils during the past year. The scholars have amply repaid the conscientious care given them by their accomplished teachers. A number of children were absent, owing to the prevalence of the measles, whooping cough, etc. The Misses Young will reopen their school the first Monday in September.

ANOTHER LOSS.

The C. & O.'s Iron Bridge at Cabin Creek Wrecked by a Big Landslide.

"Misfortunes never come singly."

The washout and fearful wreck on the C. & O. at Bull Creek early Friday morning was followed late Saturday afternoon by the falling of the company's fine iron bridge at Cabin Creek, a few miles further east on the road.

It was first reported that the destruction of the bridge was caused by the undermining of one of the abutments by the flood in the creek Thursday night, but further investigation shows that the abutment was forced out of position by a big landslide. It was the east abutment, and there were tons of earth, from the big hill, above in the landslide.

The heavy pressure forced the abutment off its foundation. The dangerous condition of the bridge was discovered Saturday morning. The settling was gradual until four o'clock that afternoon, when the superstructure went down with a crash into the creek-bed.

Besides the damage by the delay to traffic, the loss on the bridge is a pretty heavy one, amounting to \$20,000 or \$25,000 at the lowest. It will require a week or so to put up a temporary crossing.

All traffic east of this city is now suspended and has been since Friday. The Maysville accommodation train is running on time.

A large force of hands is still engaged in clearing away the wreck at Bull Creek and constructing a temporary track. It is thought this temporary crossing will be finished to-day.

The body of Eaton, the brakeman who went down in the wreck, has not been recovered. It is thought by some that his remains were carried out into the river, but others believe they will be found buried beneath the boiler of the wrecked engine, which is still imbedded where it landed when it took the fearful plunge.

Hundreds of people thronged about the wreck yesterday, and the company had to have guards stationed about the scene to keep the crowd out of the way of the workmen.

County Court Doings.

Geo. T. Hunter, B. F. Thomas and Geo. B. Thomas qualified as executors of Mrs. Sallie Thomas, with T. C. Campbell, Thomas Wells and Jos. H. Dodson sureties. J. F. Barbour, Jos. H. The Union Trust Company was appointed "Public Administrator and Guardian of Mason County" for two years, and qualified with its capital stock as surety.

Harvey Keith was appointed administrator of F. M. Dobyns, with Elizabeth Dobyns as surety. Wm. McClelland, A. F. Wood and J. B. Key were appointed appraisers.

River News.

A small rise is reported at headwaters.

The M. P. Wells made a trip to Cabin Creek yesterday afternoon, taking about one hundred people up to see the wreck of the railroad bridge.

The Louise, Sherley and Chancellor are all due down this evening and the St. Lawrence to-night. Due up to-night: Bostona for Pomeroy and Scotia for Pittsburg.

The New South is now making daily trips between Cincinnati and Louisville. She is a passenger packet exclusively, and makes but one landing between the two points.

Blue Lick Springs.

THE BULLETIN's Desha Valley representative says: "The opening ball at the Pavilion Hotel Friday night was well attended, considering the threatening character of the weather and that there was but one brief notice and no cards. Arrangements are on foot for a grand ball early in July to be given by the wheelmen."

Venue's string band of Maysville furnished the music Friday night. Some of the most famous dancers and beauties of the bluegrass region were on the floor.

Among the regular boarders of the Pavilion are George Weissinger and son-in-law J. H. Cochrane and wife, of Pee-wee Valley; George L. Cox, wife and two children, and Dr. Hopper, of Maysville. Everything is in good shape for the reception of guests."

MORE CONVENTIONS.

The Dates Fixed for the Democrats to Settle the Superior Judge-ship Contest.

The Democratic Executive Committee of this Superior Court district has fixed the dates for the county and district conventions to settle the extraordinary triangular contest that is being waged for the nomination to succeed Judge Ward. July 7th is the date of the district convention, and it will be held at Lexington, where the fight last week was made.

The various county conventions to select delegates to the district convention will be held June 28th.

If Messrs. Young and Brent remain in the fight it will be livelier than ever. Judge Robertson is in the contest to the finish.

For the Farmer and Stockmen.

There are 29,000 acres of melons in Georgia this year.

The combined receipts of hogs at Chicago, Kansas City and Omaha, for the month of May, aggregated 917,600. Receipts at Kansas City—252,185—were 20,000 heavier than the corresponding month last year.

It is estimated that over \$2,000,000 changed hands in Kentucky for trotting horses, alone, during the past year, at private sale, and more than half that amount has been realized for horses at public auction.

The New York World says: The uncertainties of racing were never better shown than when Mr. John A. Morris' two-year-old Russell, for which \$650 was paid, won \$20,000, while Senator Hearst's \$38,000 King Thomas made a disgraceful exhibition of himself. Russell has won in his four stakes—the Bedford, the Great American, the May and the Galliard—\$25,000. He has probably cost the owner for keeping and training him \$250, so that the net profit is above \$24,000. If the horse stands up he will surely win the Great Eclipse, stakes with \$5,000 added money, and he is entered in most of the big summer stakes. King Thomas, on the other hand, has never won a race in his life.

Railroad News.

The Scioto Valley has been sold to the Norfolk and Western for \$5,000,000.

The first of the C. and O.'s "personally conducted" excursions to Old Point this year is advertised to leave Cincinnati on June 24. Many people from points in Ohio, Indiana and Kentucky have already secured tickets. There is one party of ten from Bowling Green, Ky.

Another Barn Burned.

C. Coryell's barn near Orangeburg was struck by lightning during the disastrous storm Thursday night and burned to the ground, together with about 5,000 pounds of tobacco and a lot of farming implements.

The amount of the loss \$700 or \$800. No insurance.

BERLIN SOCIALISTS

Hold a Meeting and Censure the Emperor for His Labor Rescripts.

LONDON, June 16.—An enormous meeting of the Socialist Democrats was held in the Volksfrankei at Moabit, a suburb of Berlin. The immense building was packed to suffocation and thousands were unable to obtain admission and held overflowing meetings near by. The meeting was a very exciting one. The speakers freely criticised the Socialist and labor policy of the emperor, and the meeting finally passed a resolution censuring the kaiser for his labor rescripts. The day was past, the resolution set forth, when Germany could be governed by rescripts. The people demanded a full and unrestrained share in the government of the empire, and said it could not be with safety denied them. The meeting was very noisy, but otherwise was orderly.

THE POPE'S PREDICTION.

Society Warned of Its Indifference to the Church.

ROME, June 16.—The pope predicts that great punishment will fall upon society by reason of indifference to the church. He said to visitors at the Vatican: "The Lord will come no longer with a sweet and peaceful face, but with an angry one, to strike and purify his church. I am neither a prophet nor the son of a prophet, but I feel in my heart the presentiment. A sea of evil is about to beat against the rock on which the church is founded, and nothing will be seen on the horizon but the threat of the anger of God. Prayer will not suffice to appease the Almighty."

He urged the dissident Liberals to give their undivided support to the government. A long discussion followed. A resolution was finally adopted declaring that the dissident Liberals would support the government, though much opposition to the resolution was developed during the discussion.

Vienna Bakers.

The master bakers of Vienna, a few days ago, in order to avert a strike, increased the wages of the journeymen. Though the increase was not as great as the men demanded, they were satisfied and remained at work. Friday the masters reconsidered their action and announced to their employees that the wages would remain the same as before. This action is resented by the men and a strike is regarded as certain.

A HUGE RAFT.

To Be Towed from New Brunswick to New York.

NEW YORK, June 16.—Two tugs left for St. John, N. B., on Tuesday to take in tow another mammoth raft consigned to James D. Leary, of this city, who was the owner of the famous Jogging raft which broke away from the steamer Miranda during a storm in December, 1887. The timber of which the new raft is built was cut just back of St. John, N. B. The raft is in seventeen cigar-shaped sections, each 100 feet long, 25 feet deep and 85 feet wide. It will be bound together with chains, making a structure 1,700 feet long, and the sections will be detachable to lessen the danger of the loss of the whole raft in case of accident.

It will take between fifteen and eighteen days to get the raft to this city. It contains 400,000 feet more lumber than the Jogging raft carried.
